

Job description:

Construction Concrete Finisher

Title: Finisher

Emphasis on:

Reports to: Project Executive, Project Manager, Superintendents and President

Supports: Project Executive, Project Manager, Superintendent, Foreman, and President

Essential Duties & Responsibilities

This job description reflects the assignment of essential functions, but does not proscribe or restrict the tasks that may be assigned. They may be subject to change at any time for reasonable accommodation or any other reason.

ECS requires a dynamic Concrete Finisher to ensure quality on each project, while ensuring customer satisfaction by identifying and exceeding client's needs, through direction of daily operations on your projects, including responsibility for overall safety, direction, completion, and outcome of construction projects.

Duties required:

- Operates a screed to level freshly placed concrete according to grade and depth specification
- Smooth concrete surface using either a hand trowel, long handled "bull float" powered float and/or riding trowel machines
- Cut joints/grooves in concrete with edging tools to help control cracking, as well as layout and sawcut joints with an early entry saw
- Apply hardening and sealing components to cure surfaces
- Monitor the wind, heat and cold as it affects the curing of concrete
- Set and place forms to proper elevations and location, prepare the base and install proper reinforcing
- Install anchor bolts, steel plates imbeds and other fixtures into freshly poured concrete and/or pattern or stamp the surface to provide a decorative finish

Abilities required:

- Must have good vision, stamina, good hand eye coordination and an ability to estimate size and dimensions.
- Skill in smoothing, finishing freshly placed concrete, applying surface treatments and restoring concrete surfaces.
- Required to perform tasks that include heavy lifting, climbing, balancing, stooping, kneeling, crouching, crawling and reaching
- Must be able to work outdoors in areas that are dusty or dirty
- Work overtime as required
- Must be able to meet all safety requirements and applicable safety policies.

ECS Distinctives:

- Maintaining positive and transparent relationships with owners, GC, ECS office staff and subcontractors
- Assuming responsibility on the jobsite for any issues that could arise, handling in a timely fashion with positivity and professionalism
- Finishing projects as strongly as they're started
- Maintaining solid relationships with ECS employees
- Maintaining a proactive vs. reactive attitude and work ethic

Knowledge, Skills, and Abilities

- Ability to read, understand and implement project plans and documents
- Ability to manage several tasks at once and exercise independent judgment related to daily administration of projects.
- Demonstrated skills in organizing and evaluating information and proactively finding solutions for onsite items.
- Able to work in a team environment and communicate effectively.
- Dynamic, entrepreneurial, disciplined and organized personality.
